February 2019

1 How big was the insurance CSV file once uncompressed?

The file was 5MB in size.

2 How many lines did the CSV file have before doing the EOL conversion?

The CSV file had 0 lines before doing the EOL conversion.

3 How many lines did the CSV file have after doing the EOL conversion?

I was unable to complete this step because I have been unable to run dos2unix on the command line in OSCER.

4 How many lines did the CSV file have after doing the EOL conversion?
